Sunrise Valley DIH **services:**

SSSIC can offer a total of over 40 innovation support and digital innovation services. Companies that have used SVDIH services will have the opportunity to recover up to 50% of their funds using de-minimis state aid.

Sunrise Valley Science and Technology Park has formed a group of innovation providers, and together with nine organizations have started implementing the project "Development of activities and services of Sunrise Valley Digital Innovation Hub". The project aims to achieve the following goals:

- To create awareness about digitalisation benefits and implementation possibilities.
- Increase the competence and infrastructure capacity.
- Expand collaboration relations.

The project is partially financed by the funds of the European regional development funds according to the "Skaitmeniniai inovacijų centrai" call no. 01.2.1-LVPA-K-857-01.
